**ShaliProtek® HR BT 100**

Heavy Duty Anti-Corrosive Bituminous Paint for Ductile Iron

**Description**

ShaliProtek® HR BT 100 is a heavy duty bituminous coating which gives a smooth black egg shell mat finish. The coating shall not impart any taste or odour to water, and it is non toxic conforms to BS 3416 /1991, Type II (For Portable Water)

It shall provides highly durable protective coating to prevent corrosion or rust on Ductile Iron, Mild steel structures & Waterproof to the concrete surfaces.

**Characteristics**

* Depending upon surface condition

**Application**

- External surfaces of Ductile Iron Pipes.
- External surface of any MS steel structure.
- External concrete surface

**Advantages**

- Easy application by brush / spray gun. It dries rapidly leaving black egg shell mat finish.
- Resistant to water, acids / alkalis and natural salts.
- Does not crack due to weathering, expansion or contraction.
- Give highly durable protective air-tight coating to prevent corrosion or rust on iron, steel, Ductile Iron & concrete surfaces against air, moisture, sea water.

**Application Methodology**

- **Surface Preparation**
  - Remove all loose gravel, dirt, oil, grease and foreign matter by jet of dry air and clean the surface mechanically or by grinding to make it smooth before application.

- **Material Preparation**
  - Stir ShaliKote BT 100 thoroughly to achieve homogenous mix by a mechanical drill.

- **Application of Material**
  - Apply ShaliKote BT 100 on dried and cleaned surface by brush or spray gun.

**Health & Safety**

- Avoid contact with skin / eyes and avoid swallowing.
- Ensure adequate ventilation and avoid inhalation of vapour.
- Wear suitable protective clothing, gloves and eye protection.
- In case of skin contact, rinse with plenty of clean water, then cleanse with soap and water.
- Do not use solvent to clean the contacted area.
- In case of eye contact, wash with plenty of clean water and seek medical advice.
- If swallowed, seek medical attention immediately. Do not induce vomiting.

**Packing**
Available in 20 Lits and 200 Lits container.

**Storage**
Keep in cool and dry place, under shed, away from heat.

---

**Product Range**
- Waterproofing and Insulation
- Sealants and Additives
- Pipeline Coating
- Protective / Anti-Corrosive Coating
- Epoxy Flooring
- Grouts / Admixtures
- RestoFix - Repair / Rehabilitation
- Other Construction Chemicals
